BETWEEN WORLDS

Between Worlds explores the significance of the other and the foreign in times of redrawn borders and the role of artists as agents of change and connection. Originating from a site-specific performance and a workshop in Valle Antigorio (Italy), students from the Music and Scene in Transformation program (HSM Basel) and the FHNW University of Teacher Education investigated issues of migration and questioned state-imposed borders. The result is an experimental music performance film, which will be complemented by a live performance on September 23.
